SUMMARY

Dedicated and detail-oriented Software Engineering undergraduate of SLIIT with a solid background in software development. Additionally, I completed the first and second stages of AAT and am currently working on the third level, exhibiting good analytical, financial, and problem-solving skills. Passionate about developing scalable, efficient software solutions and always improving technical skills. I combine a solid academic foundation with hands-on experience, eager to utilize my knowledge in a dynamic, growth-oriented atmosphere.

EXPERIENCE

Accountant | Commercial Trading Company | Sri Lanka

- Oversaw the company's general account operations by strategically controlling and verifying financial transactions.
- Maintaining confidential finance documents and others.
- Vast experience in dealing with customers.
- Processed accounts payables & receivables, prepared invoices to clients and ensured timely payment collection.

Software Engineer | NeoLight Computer Services W.L.L

- Worked as a Software engineering intern

Free lancer

- Worked as a free lancer
- Mobile application designs UI/UX (mostly worked with Html, CSS and Kotlin)

EDUCATION

BSc (Hons) in Information Technology | Software engineering | Sri Lankan Institute of Information Technology | Sri Lanka | 2022-2026

- CGPA - 3.35 (Currently in year 3)

GCE Advanced Level | Commerce Stream | Private Candidate

AAT (1st & 2nd stage - completed) | Private candidate | Sri Lanka

GCE Ordinary Level | Royal International School Kurunegala | 2019

TECHNICAL SKILLS

- Programming languages – Mern stack, Java, SQL, HTML/CSS/PHP/JS, Next.js, Tailwind css - Web Development
 - Mobile App Development – Kotlin (Android)
 - Database Management – MySQL, MongoDB
 - Version Control – GitHub
 - Operating systems – Windows
 - Wireframe designing
 - Data Modeling - UML Creating - Logical Data Models understanding
 - Entity Relationship Diagrams
 - Agile and Scrum Methodologies
 - MS project
-

TOOLS

- Visual Studio
 - Visual Studio Code
 - Eclipse EE
 - Android Studio
 - GIT hub / Git
 - IntelliJ ide
 - Figma
 - Cypress / selenium
 - Kubernetes and docker
 - Osgi eclipse equinox
 - Oracle
-

SOFT SKILLS

- Problem Solving
 - Color Coding
 - Project Management
 - Communication
 - Designing
 - Collaboration
 - Time Management
 - Adaptability
 - Critical Thinking
 - Public relations
-

Dear Hiring team,

I'm writing to convey my strong interest in the Software Engineering post. As a Software Engineering undergraduate at SLIIT, a freelance developer, I am excited to contribute my talents, technical knowledge, and passion to your prestigious organization.

Throughout my academic and professional career, I've received practical knowledge in software development, modular architecture, and web application design. My studies and projects have honed my skills in Mern stack, Java, SQL, HTML/CSS/PHP/JS, Next.js, Tailwind css, and database management, while my freelance experience has allowed me to work on real-world projects, improving my problem-solving and adaptation abilities.

During my time at Neo Light Computer Services W.L.L., I worked actively on developing and optimizing software solutions, collaborating with cross-functional teams, and honing my skills in full-stack programming, debugging, and software deployment. This experience has given me a solid foundation in Agile techniques, version control (Git), and cloud computing technologies.

My ability to solve complicated problems, write efficient code, and collaborate allows me to thrive in fast-paced development environments. I am particularly interested in developing scalable, user-centric products and extending my understanding of modern software engineering approaches.

I am very enthusiastic about the opportunity to bring my talents and energy to your team. I would appreciate the opportunity to explain how my background and experiences connect with your needs. Thank you for your time and consideration; I look forward to hearing from you shortly.

Warm regards, Hamna
Hakeem.
